

AIR 1 is an important part of my daily life. It is the most important radio station on my dial, and gives me more than just enjoyment or entertainment. It gives me encouragement and insight. There are only two Christian stations in our city, AIR 1 and K-LOVE, both are national services that would be eliminated if LPFM is expanded. I am speaking not only for myself but for many friends, family, and acquaintances that listen to AIR 1 every day. AIR 1 is a vital part of the Lexington community, since as I stated before, it is one of only two stations, both national. It is comforting to know that wherever I move after I am done with school in December there will likely be an AIR 1 signal there. Not only is AIR 1 important in our community, it helps us connect to other Christians across the country. There are so many regular local radio stations that play country, rock, or other music, but no local Christian stations. Please don't take something so important away from us.
